Worried About H1N1?

Hello Families!

Fall is officially here and that means bringing out the cold weather gear and getting ready for the Holiday Season. Unfortunately this also means flu season has arrived, and this year we have the ugly H1N1, or "Swine" Flu, to deal with.

Luckily there are plenty of things we can all do to keep from catching the H1N1 Flu. First, it is very important that you stay informed about what areas

are being heavily hit by the bug and when the vaccination will be available in your area. Also, washing or sanitizing your hands often will keep the germs away. Don't forget to cover your nose and mouth when you cough or sneeze, too. Also, avoid touching your eyes, nose, and mouth to minimize the spread of germs.

If you do have symptoms of the H1N1, such as fever and chills, sore throat, coughing, headache, body aches, diarrhea,

vomiting, severe fatigue, runny nose, nasal congestion, sneezing, and watery eyes, stay home! The best thing you can do for yourself and others is to try to recover as quickly as possible without spreading the bug even further.

To learn more information about the H1N1 Flu visit the Center for Disease Control's website at www.cdc.gov or contact your local Health Department.
